Mr. CHOLVELL—I would like to say that, in regard to this matter, I have made up my mind to pursue a different course than I have heretofore, for various reasons, and one is that the Chairman of this Brand has seen fit to charge me with sundry acts, of which he knew nothing, in open Board and before strangers—one of which was that I would not dare to vote except at the dictation of Fernando Wood; and another that I had voted the straight Democratic tiket. In that I had voted the straight Democratic tiket. In the I had voted the straight Democratic tiket. In the I had voted the straight Democratic tiket. In the I had voted the straight Democratic tiket. In the I had voted the straight Democratic tiket. In the I had voted the straight Democratic tiket. In the I had voted the straight Democratic tiket. In the various station houses, and especially in those of my own Ward, it has become as no with at I do no; go into the houses at all, and they quote Gen. Nye as the author of those arcertions; and I wish to show in my vote hereafter that I dare vote to suit myself.

The first, 'second and third ballots stood as follows:

Mr. Bowes Cyrus Cartis.

Mr. Bowes Cyrus Cartis.

Mr. Bowes Cyrus Cartis.

Mr. Sprakanian Gyrus Cartis.

Mr. Orichwell. John Wheeler.

Mayor Wood-Then you reject Mr. Schirmer.

Gen. Nyz-I do not know the man.

Mayor Wood-If we do not make any choice at
this meeting we can adjourn and give you time to inform yourselves.

Gen. Nyz-I will give the name of a man who is in

every way unexceptionable, who is a large property holder, and whose whole interests are here, and a rame that is not unknown out of the boundaries of the city—a name that ought to command the countenance of all. I submit the name of E. D. Moore. I do it in the same spirit of liberality that your Honor expressed. I am not going to be outdone as regards this question of liberality.

of liberality.

Mayor Wood named over a list of men he had presented, the last though not least of which was Simeon

Draper.
Mr. Bowzs—And we elected him. Mr. Bowzs—And we elected him.

Mayor Wood—Now, I am earnestly desirous of filling this vacarcy. As I said before, I am not aware of the political zentiments of Mr. Stewart, Mr. Taylor, or several others I have named. I am willing to take a man of no politics, if such a man can be found, if he is chip qualified; and I will nominate Mr. Pelatiah Perit, President of the Chamber of Commerce of tais city. I am prepared to challenge you, gentlemen, to wate for him.

Mr. STRANAHAN—Will the Mayor vote for him at the next neeting? The Mayor must be aware that I reckle in another city, and I would merely add that I would like a little time to consider.

Mr. Bowns—Would he accept the nomination?

Mayor Wood—Not one of these men I have mentioned have I ever conversed with on this subject. I recease this man.

Mr. Bowrs—I will very cheerfully vote for Mr. Perit. He is a man in every respect unexceptionable; but the Mayor will recollect that a fortnight ago we voted for Mr. Draper, and now I trust we will not be disappointed in the same way. If the Mayor is prepared to take the vote on that, I am prepared to vote for Mr. Perit now.

Mr. Strannatian—You must recollect that I live outside the city, and I want to give an intelligent vote, and I wish you would put it oil till Monday or some subsequent day.

The vote was unanimous for Mr. Perit, and he was accordingly declared elected.

Gen. Nyk—I am asked to present a resolution in regard to the stopping locomotives at Forty-second street, on the Harlem and New-Haven Raitroad.

Mayor Wood—I thought that subject was disposed of, I cannot see that we have anything to do with it.

Mr. Bowen—I object to the acceptance of the resolution.

Mr. JOHN C. DEVEREUX-The reason why we now the other resolution was not sufficiently explicit, and we merely with the Board would express themselves on this subject

Mr. Bowas—I take it for granted that it will require me before the Board is that Mr Ta

no interposition of a third person in this matter, I object to it in toto.

Mr. Deveneux-Nothing is further from the wish of

the citizens than to go in opposition to the wishes of this Board. I apprehend that it is the direct course to apply to the Board for further instructions, and we are here for that purpose. Mr. Bowen said the other day in the other room that we should have another resolu in the other room that we sl tion if that was insufficient. Mr. Powen-I do not wish -I do not wish you to understand that I

Mr. Bowes.—I do not wish you to understand that I am opposed to this in itself considered.

Mayor Woop.—I consider the resolution we adopted meets the cemands of the case fully. The only difference between the resolution passed and this is that this is a specific resolution for this specific case. I think the case was fully provided for before.

Mr. Bowes.—We have instructed the General Superintendent to perform all the duties devolving upon him or us. If he has any doubts respecting the instructions he has received, it is his duty to state his doubts to this Board directly.

tions he has received, it is his duty to state his doubts to this Board directly.

Mr. STRASAMAN—We have very little discretion in this matter; it is our duty to enforce the ordinances of the Common Council of this city, and but for the fact that the Common Council have this matter in hand I would vote for this resolution; and if the Common Council do not move in the matter or seem desirous of taking any steps, I would vote for it in a very few days time. We may, perhaps, in view of the circumstances hat for a few days; indeed, that is just what we are doing, but it is what we cannot do many days kreer.

Mayor Woop-Mr. Chairman, if the proceedings of

we are doing, but it is what we cannot do many days kreger.

Mayor Wood—Mr. Chairman, if the proceedings of the government in this case illustrate the efficiency of a board for the execution of the laws I am afraid that the government of the city will be in trouble, if we are to discuss here, and if we can do it, the promiety of the ordinances of the Common Council. Why, I cannot admit for see moment that this Board has the slightest discretion. The law says this is an ordinance, and we cannot wait. As I said before, we must obey orders if we break honore. It is out duty to chey an endinance if we stop every railroad in the City of New York.

Mr. Stranatan—It will be remembered that the executive power governing the Police force has here to fore delayed this matter for months, and even years, and we can do so now for a few days; I insist upon it for a few days and not for months and years.

Mr. Bowes—I quite agree with the Mayor of New York, that this is an executive board, and that we have no right to go behind the ordinances. We are bound to carry all the ordinances into effect. I propose that we shall do so; I shall vote for it—I have voted for it in reference to this railroad. The Mayor says the resolution was entirely satisfactory to himself; I supposed it not the demands of the case. We have not received efficial information that the resolution has not been carried into effect. We only hear that the General Superiotendent had passed. Now when it is brought to us officially that he has not acted, and the reasons why he has not acted, I am prepared to act again. I quite agree with the Mayor that we must ovey orders if we break honors.

A Gentleman—whose name was not given—here areas and made some very spirited remarks consuming the Board for their indulgence to rich corporations which violated ordinances, while a poor man was breaked we to some here a time remedied the difficulty.

Gen. Nex.—A though I generally vote without any explanation, yet I wish to explain my vote on this resolution. I voted against

shall obey all the ordinances of the Mayor and Commonalty. It they do not obey them, then the law gives the remedy itself. If they do not obey them the law gives the remedy itself. If they do not obey them the law says that they shall within one month after such recommendation proceed to remore such railway—not to stop the cars. I do not think the law authorizes the Common Council to pass an ordinance to do anything but to proceed and immediately take up the track.

Mayor Wood—The question as to the propriety of interfering is one that I distinctly wish to be understood is not now in question. I do not say whether the resolution was right or not; it was passed before I became Mayor. It may have been thought that I would have vetoed it. These people appeal to use and I appeal to you. We find this law in existence, and it is our duty to accept it.

Mr. Bowes—We have discharged our duty, and I move this resolution be laid on the table.

This motion was carried, all voting in favor of it except Mayor Wood.

Mr. Draper's letter of resignation was then accepted.

Jarboe, and Josephine Anderson, the sister of Officer Anderson, are entitled to the relief provided by the 25th section of the Metrepolitan Police act, we do hereby order that the said wildows of Sparks and Jarboe and the said sister of Anderson be paid each quarterly by the proceeds of the Police Health and Life Insurance Fund the interest, at the rate of six por cent per annum, on \$2,000.

The bill for music was laid on the table.

A protest was entered against the interference of the police with the proceedings of the Twelfth Ward Republican Association.

THE PRICE OF MILK. - The milk domers of this city are unreasonable in their demand. In fact, some of these who get then supplies over the Erie road are dishonest. In consequence of a recent increase of freight upon milk on the Harlem read of 1 of a cent per quart, the dealers immediately added a whole cent per quart to their price to families, making it seven certs instead of six. Thus the advance of freight was made the excuse for an act of extortion, and was a subject of gratification instead of complaint. Of course the Orange County milkmen wanted the same opportunity to make money, and began preparing their customers by telling them they expected freight would be advanced on the Erie road and, corsequently, they would have to advance the price. The road soon gave them the opportunity desired, by a resolution to raise the freight to correspond with that of the Harlem road after a given date. This was enough for the milkmen; they held a meeting and got their sayings and doings reported in the papers as a sort of notice to customers hat they must raise their price, but that it was not their fault, and straightway they went and did it. In the mean time the Directors of the Erie road reconsidered the resolution to advance, and published the following card : "SPECIAL NOTICE.

number of persons out of employment, and the fact that mill one of the necessaries of life, are unwilling to be the cause an advance in the price of that article, and thereby tend to crease the diatreas now prevalent among so large a class of community. They have, therefore, in consideration of the men not advancing the price of milk, decided not to advanuntil further notice, the rate of transportation as contempla on the 2s proximo.

and not advanced their price! We say nay-we are assured by persons who take Orange County milk that they are charged seven cents a quart, and the reason given for the advance is that the Erie road has raised the freight. The reason given is a lie, and the advance a cheat.

OUEER CONSTRUCTION OF LAW .- The Democracy are well known to have for all laws a construction peculiarly their own. The provision of law relating to the Inspectors and Canvassers of Election is positive in its enactment that there shall be no more than two Canvaseers voted for on each ticket. Of these the two receiving the highest number of votes are to be rewarded as elected, and a third Inspector and a third Canvasser are to be appointed by the two electedsuch appointment to be made from the two who received the largest number of votes next to the two bighest. There can be no two constructions put upon the law as regards this point; but the superior intelligence of certain Democrats is actonishing, and particu-larly the wisdom of the Democratic Canvassers of the Vth Elective District of the Tenth Ward, who were elected on Tuesday last. It seems that two Denocratic candidates received the highest votes-consequently they were elected. The American candidates, George Hall and Edward S. Brown, received the next highest number of votes, they having been supported by the Republicans on the Fusion ticket. Of course one of them should have been appointed, as they re ceived the largest number of votes next to the highest. But the two Democrats elected, in their wisdom, decided that, as the Fusion ticket was a tie, they would ignore it altogether, which they did do, and appointed Henry O. Jackson, who received a few votes as a Strait-out American candidate. When it is considered that the two candidates for Inspectors nearly always run even, and no difficulty is experienced in choosing one of the two, it would puzzle a Philadelphia lawyer to know by what construction of the law relating to the appointment of Inspectors and Canvassers, these Democratic officials undertake to say they have the right to choose a third party for whose appointment no provision is made by law, and who is largely a minority
